**Impact Gel:** [http://www.youtube.com/watch?v=YoV2Bp\\_c7aI](http://www.youtube.com/watch?v=YoV2Bp_c7aI)

Are you on your feet all day? Does the contact pounding cause your ankles, knees and back to ache?

Hi, Billy Mays here for the world's greatest insole, Impact Gel.

Why am I smashing my hand with this hammer? To show you the amazing protection you get from Impact Gel.

And this hammer is real.

The same gel technology is used in our Impact Gel insoles.

If you have sore, tired, aching feet, Impact Gel absorbs more shocking pressure than other insoles. Unlike regular insoles that break down over time, Impact Gel is injected into the areas that provide pressure relief where you need it most – the heels and balls of your feet.

The gel never breaks down. And when impact occurs, the insole soaks up the shock and the force now ripples throughout the gel pads. No regular insoles can do that.

Even after continuous pounding, these M&M's don't break.

Imagine the relief you'll feel in all kinds of shoes. They even work in cowboy boots. I use them, and they work.

Talk about shock-absorbency ... I'm going to run over my hand with this 6,000-pound car. That's the power and protection of Impact Gel.

Whether you're a runner, a professional or a stay-at-home mom, you deserve the comfort of Impact Gel. Stop spending hundreds on inferior insoles. Remember, nothing absorbs a shock quite like Impact Gel.

Call now and get a pair of our Impact Gel insoles for only \$29.99. But that's not all.

We'll also send you a pair of our Impact Gel inserts free. They're perfect for dress shoes and casual wear. But I'm still not done.

Call right now and we'll double the offer. Just pay separate shipping and handling.

That's right, you'll get two sets of insoles and two sets of inserts, a \$90 value, all for \$29.99.

**The Gopher:** <http://www.youtube.com/watch?v=Cx3ZpRL0x7g&NR=1>

Hi, Billy Mays here for The Gopher, the handy helper that reaches so you don't have to.

Use it for reaching up high or for picking up down low. In the laundry room, it's the best! It will get that odd sock in an impossible-to-reach area. Any object, big or small, it grabs, fits and lifts them all.

If you can't get to it, then the Gopher is great. Grip and lift in one easy motion. With just one finger, The Gopher locks on so you could pick up, take out and put back without any effort.

The secret is the suction action, combined with the easy-locking handle that gives you the power to reach without stretching or bending.

Under the bed or under the sink, just squeeze and retrieve with one simple step. It picks up what you don't want to touch, and it's much safer than the stool or a chair.

Use it outside in the yard. It takes the bending and reaching out of your daily chores.

Whether you're small or tall, the Gopher has the power to pick up and reach it all. It's precise enough to pick up this paper clip, yet strong enough to hold this five-pound bag of sugar.

If you own a car, trunk, boat or RV, it's the perfect companion. And when you're done, it folds for easy storage. When something's out of reach, just go for it.

*"No matter what I have to pick up, whether it's outside or inside, with the Gopher, it's within my reach."*

Similar products sell for as much as \$35. Call now and you'll get not one, but two Gophers for only \$19.99.

But call in the next five minutes, and we'll include the MagnaGopher absolutely free. The powerful magnetic tip is perfect for picking up keys and other hard-to-reach metal objects.

That means you'll get two Gophers and the MagnaGopher – a whopping \$80 value all for just \$19.99. But you got to call now.
